SUMMIT 2900
100% SAUVIGNON BLANC
D.O. Leyda Valley

With its 2,900 peaks, Chile rises up into the most phenomenal and extensive volcanic chain on the planet. To honor the influence that each one of these volcanoes has had on our geography over millions of years, we have named these wines "Summit 2900".

Vibrant on the palate, this Sauvignon Blanc is made with grapes which fully express a most extreme soil product of volcanic eruptions. This wine is very bright, with greenish hues. It unveils citrus aromas and a charming minerality wrapped in subtle notes of herbs, hints of saline and white pepper. This Sauvignon Blanc is fresh in the mouth, but also distinctive and elegant. Excellent to pair with shellfish, fish, salad, cheese and white meat.
